

# STRIP CLIP

*To secure decking boards to a wooden joist.*

## TECHNICAL CHARACTERISTICS

**Clip material** Polyoxymethylene (POM)

**Weight** +/- 53 g/pc

**Length** 376 mm

### Attention: profile not compatible with dismantling keys

- Concealed fastening solution
- Six-clip strip to fix three 120-mm-boards
- Needs to be fixed onto a joist
- Strips can be connected together
- The strip will leave a 4 mm gap between 120 mm boards, a 5 mm gap between 119 mm boards, and a 6 mm gap between 118 mm boards.
- The clip thickness raises the board 5 mm above the joist to prevent wood-to-wood contact and ensure the required ventilation
- Board are simply snapped onto the clips
- Simple quick and comfortable installation
- 100% recyclable
